

סולידריות ישראלית

אנחנו לא לבד

"Israeli Solidarity" is a social initiative that supports two primary goals - seeking to connect Israelis who are in need of immediate and efficient emergency aid with willing volunteers, as well as increasing the solidarity within the Israeli society.

OUR STORY

Since our establishment in the early days of the COVID-19 crisis, we have extended our help to thousands of people from every corner of Israel by recruiting and mobilizing over 7,500 volunteers, who have since provided assistance to the elderly, raised donations including dry foods and cooked meals for families in need, supported emergency care providers and much more.

NATIONAL-SCALE ACTIVITY

One of our primary strengths as an organization is that we operate on a large national scale, while operating a thriving local operating system. As a result, we are able to effectively extend our reach and provide direct aid - anywhere and anytime - at a low cost for the community and with great efficiency.

MOVING FORWARD

We plan a call-for-action to the thousands of volunteers we have recruited, encouraging them to create active communities by giving them the necessary guidance and tools for the task. We aspire to form local centers that will be able to deliver aid within their respective areas, under the logistical and organizational umbrella of our initiative.

SOLIDARITY IN NUMBERS

7,500 active volunteers

1,200 student volunteers

20,000 people received our help

12 regional volunteer groups
